# Key Professional Impact Metrics

RECRUITER SUMMARY

15+

Years Experience

Across Education, Tech & Corporate L&D environments

3,000+

Learners Supported

Career changers, tech beginners & professionals

90%

Efficiency Gain

Via Python, Excel & Power Automate workflow automation

100%

Certification Rate

In technical learning programs (Azure, Data Analytics)

## Value Proposition for Hiring Teams

Combines a strong **Master of Computer Applications** background with expert L&D methodology to translate complex technical domains into scalable, highly engaging curriculum with measurable operational efficiency.

### PRIMARY TOOLS APPLIED:

Python Automation

Power Automate

Kirkpatrick Model

Learning Analytics

Azure / AI Fundamentals

# Professional Profile & Capabilities

RECRUITER SUMMARY

## Strategic L&D Expertise

15+ years of hands-on expertise designing, developing, and delivering learner-centered programs across education, corporate, and tech domains.

Specialized in instructional design, adult learning, blended learning, digital content, and learning analytics that directly drive business outcomes.

## Technical & Automation Focus

Leverages a background in Computer Applications to bridge the gap between technical subject matter and intuitive learning design.

Applies Python, SQL, Excel, and Power Automate to streamline L&D operational workflows, eliminate manual reporting effort, and focus on learner success.

### CORE FRAMEWORKS:

ADDIE

Backward Design

Adult Learning Principles

Blended Learning (VILT + eLearning)

# Core Competency Matrix

RECRUITER SUMMARY

## Learning Design

- ADDIE Framework & Backward Design
- Bloom’s Taxonomy & Rubric Creation
- Adult Learning Principles
- Needs Analysis & Learner Personas
- Assessment Strategy & Pathways

## Delivery & Tech Stack

- Blended Learning (VILT + Class + eLearning)
- LMS Admin (Blackboard, Schoology, Coursera)
- Articulate 360 Content Development
- Canva & Digital Multimedia Assets
- Microsoft 365 & Technical Labs

## Analytics & Innovation

- Kirkpatrick Training Effectiveness
- Learner Performance Tracking & KPIs
- Workflow Automation (Python / Power Automate)
- Advanced Reporting (Excel & SQL)
- Process Improvement & Optimization

 **TOOLS & TECH FEATURED:**

Articulate 360

Blackboard

Schoology

Coursera

Python

SQL

Power Automate

# Learning Experience Design Methodology

RECRUITER SUMMARY

© Goal: Transform complex concepts into intuitive, actionable learning experiences that build skills, confidence, and career readiness.

 **METHODOLOGIES:**

Agile L&D

# Selected Impact & Key Achievements

RECRUITER SUMMARY

-  **Technical Learning Program Architecture:** Designed & delivered comprehensive technical curricula in Data Analytics, Python, SQL, Azure Fundamentals, AI Fundamentals, and Networking—achieving a **100% certification pass rate**.
-  **Empowering 3,000+ Diverse Adult Learners:** Guided career changers, non-tech professionals, and adult learners through personalized, inclusive learning pathways utilizing adaptive support and learner personas.
-  **L&D Operations & Automation:** Engineered automated reporting workflows using Python scripts, Excel macros, and Power Automate, reducing manual administrative reporting effort by **90%**.
-  **Data-Driven Continuous Improvement:** Established learning metrics dashboards that track real-time learner engagement, completion rates, and post-training efficacy.

⚙️ CORE SKILLS EMPLOYED:

- Curriculum Design
- Python Automation
- SQL
- Excel
- Azure & AI
- Power Automate
