PROFESSIONAL SUMMARY

Learning Specialist & Technical Trainer with 10+ years of experience in **curriculum design, instructional content development, and software-based learning experiences**. Proven expertise in instructional design, eLearning development, and content quality control using tools such as Articulate 360, LMS platforms, and data-driven performance dashboards. Experienced in leveraging **AI tools, software applications, and data analytics** to design and automate scalable content and learning solutions. Works closely with cross-functional teams to ensure learning content is accurate, consistent, and engaging.

CORE COMPETENCIES

- **Content Design & Development:** *Help documentation, tutorials, course materials, interactive assessments, microlearning modules*
- **Data Analysis & Reporting:** *Learner metrics, engagement analysis, performance dashboards*
- **Instructional Delivery:** *Technical and non-technical audiences, AI tools, blended learning solutions*
- **Project Management:** *Curriculum planning, content QA, automation of learning workflows*
- **Software & Tools:** *Articulate 360, Blackboard, Schoology, Power BI, Salesforce, Coursera, Cognos, JIRA, Asana, Microsoft 365*
- **Programming & Automation:** *Python, SQL, Excel, C++, Power Automate.*
- **Collaboration & Communication:** *Cross-functional stakeholder management, Agile methodology, clear writing, voice & tone consistency.*
- **Quality Control & Standards** *Content review, accuracy checks, LMS-ready courses, and learner experience quality*

PROFESSIONAL EXPERIENCE

LEARNING & DEVELOPMENT SPECIALIST | TECHNICAL TRAINER

April 2021-Present

NPower Canada, Toronto

- Design and deliver technical training programs using tools like **Articulate 360**, covering topics such as IBM Junior Data Analyst (Excel, Python, SQL, Cognos), Microsoft Azure Fundamentals, and AI Fundamentals.
- Applied **content design principles** (clarity, conciseness, tone, formatting) to review and enhance instructional materials and AI-driven learning experiences.
- **Designed several custom quizzes, mock assessments**, and learner engagement tools to enhance participation and exam readiness.
- **Provided tailored mock interview sessions to enhance learners' confidence and preparedness for certification and employment.**
- **Collaborated with the Curriculum Development team to update training materials based on industry trends and learner feedback.**
- **Managed data collection and reporting across Salesforce, Coursera, Blackboard, and LMS platforms**, providing insights for program evaluation and funding.
- **Automated the process of generating certificates** and sending bulk email with individual attachment using python script and power automate.
- **Developed automation tools that reduced instructor reporting time by 80%, allowing the team to focus more on learner engagement and support.**
- Utilized Learning Management Systems (Schoology, Blackboard) to manage courses, distribute materials, track learner progress, and assess performance.
- **Designed learning programs** with measurable success criteria, aligned to organizational goals and key performance indicators (KPIs).

INSTRUCTOR/ TRAINER

August 2020 – March 2021

WhiteHat Jr, Elearning

- Introduced and trained students to basic and advanced programming concepts through various platforms :p5.js editor, React Native, code.org, **Thunkable, Scratch, Bracket, Firebase**, and VS.
- Effectively mentored students from diverse backgrounds and locations, across the world.
- Delivered training in front-end technologies including Python,HTML, CSS, and JavaScript.

IDENTITY ACCESS & MANAGEMENT ANALYST

April 2019 – June 2020

TD Bank, Toronto

- **Led requirement reviews** and collaborated with development, compliance, and business teams to enhance IAM processes (provisioning, de-provisioning, re-certification).
- **Developed complex SQL reports** to monitor access patterns & support compliance reviews.
- **Responded to user queries** using ServiceNow, on IAM processes to internal and external teams.

BUSINESS SYSTEM ANALYST

October 2018 – March 2019

Volunteer MBC, Brampton

- **Documented system requirements** using use cases & process flows to enhance system functionality.
- Conducted gap analysis and interviews, identifying and documenting key process improvements.

BUSINESS ANALYST

May 2014 – May 2018

Isintu InfoTech Pvt Ltd |

- Managed requirements gathering and defect tracking, improving delivery timelines by 20-30%.
- Reduced defect rates by 20% through enhanced requirement walkthroughs and defect triage sessions.

LECTURER / ASSISTANT PROFESSOR

July 2009 – April 2014

JIMS, GGSIPU

- Taught Software Engineering (UML), Visual Basic, SQL, Java, DBMS, C++ and JavaScript courses.
- **Contributed to curriculum updates, aligning coursework with evolving industry trends.**

SOFTWARE ENGINEER

January 2008 – July 2009

NIIT Technologies Ltd

- Provided production support for UK-based reinsurance applications, analyzing technical issues.
- Modified and tested Visual Basic, C#, and SQL code, optimizing system performance.

EDUCATION & CERTIFICATIONS

- Master of Computer Applications (MCA) – GGSIPU, 2008
- Bachelor of Computer Applications (BCA) –GGSIPU, 2005
- Azure Fundamentals (Microsoft) – Apr 2021, AI Fundamentals (Microsoft) – December 2024
- Agile Requirements Foundation - LinkedIn Learning -Feb 2019
- Learning Experience Designer – University of Michigan -Feb 2026
- Instructional Design: Adult Learners -LinkedIn Learning – Jan 2026
